

VNET Earns Industry-Leading ESG Ratings from MSCI and S&P Global for Three Consecutive Years

December 13, 2024

BEIJING, Dec. 13, 2024 /PRNewswire/ -- VNET Group, Inc. (Nasdaq: VNET) ("VNET" or the "Company"), a leading carrier- and cloud-neutral internet data center services provider in China, today announced that its outstanding 2024 ESG performance received high marks from leading ESG rating institutions MSCI and S&P Global. This global recognition highlights the Company's industry-wide ESG leadership and unwavering commitment to sustainable development, carbon neutrality, and green transformation.

VNET received an ESG rating of A from MSCI for the third consecutive year, with enhanced performance across opportunities in clean tech, human capital development, and privacy & data security. The Company's ESG rating holds the leading position in China's Internet Services & Infrastructure industry.

In addition, VNET's score in the 2024 S&P Global Corporate Sustainability Assessment (CSA) rose 17 points over the last year to 70, with full marks across energy management programs, data center efficiency, the share of renewable energy in data centers, climate risk management, occupational safety and health (OHS) programs, customer relations, and IT security/cybersecurity measures. To date, VNET's S&P Global CSA score ranks in the top 5% of the IT services industry globally and maintains the highest position within China's IT services sector for the third consecutive year.

"At VNET, ESG plays a pivotal role in our vision for sustainable growth," commented Josh Sheng Chen, Founder, Executive Chairperson, and interim Chief Executive Officer of VNET. "We are delighted to see our progress across our key ESG segments, Society, Human, Innovation, Environment, Leadership, and Development, once again win recognition from leading global ESG rating institutions. Going forward, we will deepen our commitment to building a low-carbon digital future, advancing the development of the green economy while creating long-term and sustainable value for all of our stakeholders."

MSCI Inc. is the world's leading provider of ESG indices, measuring enterprises' resilience to long-term, financially relevant ESG risks. The S&P Global CSA is a world-renowned annual evaluation of enterprises' sustainability practices, covering over 13,000 companies globally. Both serve as important tools in helping investors assess and benchmark companies' ESG investment performance, enabling them to make informed investment decisions.

About VNET

VNET Group, Inc. is a leading carrier- and cloud-neutral internet data center services provider in China. VNET provides hosting and related services, including IDC services, cloud services, and business VPN services to improve the reliability, security, and speed of its customers' internet infrastructure. Customers may locate their servers and equipment in VNET's data centers and connect to China's internet backbone.
