**21Vianet Group, Inc. Reports Fourth Quarter and Full  
Year 2015 Unaudited Financial Results**

*Live Conference Call to be Held at 8:00 PM U.S. Eastern Time, March 10, 2016*

BEIJING, March 10, 2016 (GLOBE NEWSWIRE) — 21Vianet Group, Inc. (Nasdaq: VNET) (“21Vianet” or the “Company”), a leading carrier-neutral internet data center services provider in China, today announced its unaudited financial results for the fourth quarter and full year 2015. The Company will hold a conference call at 8:00 p.m. Eastern Time on March 10, 2016. Dial-in details are provided at the end of the release.

**Fourth Quarter 2015 Financial Highlights**

- Net revenues increased by 15.2% to RMB983.4 million (US\$151.8 million) from RMB853.9 million in the comparative period in 2014.

**Full Year 2015 Financial Highlights**

- Net revenues increased by 26.3% to RMB3.6 billion (US\$561.1 million) from RMB2.9 billion in 2014.
- Adjusted gross profit increased by 10.7% to RMB1.0 billion (US\$158.0 million) from RMB924.2 million in 2014.

Mr. Steve Zhang, Chief Executive Officer of the Company, stated, “For the fourth quarter, I am pleased to see that we have experienced growth momentum in our internet data center (IDC), cloud, content delivery network (CDN), and VPN businesses. For our IDC business, we further increased cabinet sales during the quarter while having minor increase in our MRR, and steady utilization and churn rates during the quarter. Demand for our cloud services was strong as we continued to gain traction with Windows Azure and Office365 product offerings. Following slower than expected third quarter results, our CDN services picked up momentum in the fourth quarter in both revenue growth and customer recognition as we further increased our market share. Our VPN business continued to see solid demand supported by the strong performance of the DYX group in the fourth quarter. Our managed network services (MNS) continues to be soft as expected, which was caused by the continued industry-wide decline in bandwidth pricing. We recognized these industry challenges, but as we restructure our business and invest in our core growth opportunities, we are confident in our ability to address these challenges and accelerate growth in the future.”

Mr. Terry Wang, Chief Financial Officer of the Company, commented, “We ended the year with another quarter marked by steady top line growth, as we saw total revenues increased by 15.2% year over year to RMB983.4 million (US\$151.8 million). Overall growth was highlighted by solid performance in IDC, cloud, CDN and VPN businesses, while partially offset by continued weakness in the MNS business. In the fourth quarter, our EBITDA was also negatively impacted by restructuring costs and bad debt expenses. Going forward, as we fine-tune our cost structure and further optimize operations, we remain confident we will be able to reignite margin growth both financially and operationally.”

**Fourth Quarter 2015 Financial Results**

**REVENUES:** Net revenues for the fourth quarter of 2015 increased by 15.2% to RMB983.4 million (US\$151.8 million) from RMB853.9 million in the comparative period in 2014, primarily driven by a year-over-year increase of billable cabinets under management and continuous growth in demand for the Company’s cloud, CDN and enterprise VPN services.

Net revenues from hosting and related services increased by 26.6% to RMB754.7 million (US\$116.5 million) in the fourth quarter of 2015 from RMB596.2 million in the comparative period in 2014, primarily due to the abovementioned year-over-year increase in total number of billable cabinets and the growth in demand for the Company’s cloud business. Net revenues from MNS were RMB228.7 million (US\$35.3 million) in the fourth quarter of 2015, as compared to RMB257.7 million in the comparative period in 2014. The decrease is primarily due to the continued industry-wide decline in bandwidth prices and the loss of certain customers.

**GROSS PROFIT:** Gross profit for the fourth quarter of 2015 was RMB219.2 million (US\$33.8 million), as compared to RMB238.0 million in the comparative period in 2014. Gross margin for the fourth quarter of 2015 was 22.3%, compared with 27.9% in the comparative period in 2014. The decrease in gross margin was primarily due to higher spending on telecommunication services and continued softness in the Company's MNS business.

Adjusted gross profit, which excludes share-based compensation expenses and amortization of intangible assets derived from acquisitions, was RMB264.3 million (US\$40.8 million), compared with RMB290.7 million in the comparative period in 2014. Adjusted gross margin was 26.9% in the fourth quarter of 2015, compared with 34.0% in the comparative period in 2014.

**OPERATING EXPENSES:** Total operating expenses decreased to RMB314.5 million (US\$48.5 million) from RMB344.3 million in the comparative period in 2014. Adjusted operating expenses, which exclude share-based compensation expenses and the changes in the fair value of contingent purchase consideration payable, increased to RMB275.9 million (US\$42.6 million) from RMB234.4 million in the comparative period in 2014. As a percentage of net revenue, adjusted operating expenses were 28.1%, compared with 27.5% in the comparative period in 2014 and 25.0% in the third quarter of 2015.

Sales and marketing expenses increased by 1.7% to RMB101.8 million (US\$15.7 million) from RMB100.1 million in the comparative period in 2014, primarily due to higher service fees, which were partially offset by lower labor costs as the Company outsourced some functions to more cost-effective service providers.

General and administrative expenses increased by 4.1% to RMB166.1 million (US\$25.6 million) from RMB159.6 million in the comparative period in 2014, primarily due to a one-time charge related to an accounts receivable provision of approximately RMB22 million (US\$3.4 million), which was offset by decrease of share based compensation cost.

Research and development expenses increased by 4.2% to RMB41.6 million (US\$6.4 million) in the fourth quarter of 2015 from RMB39.9 million in the comparative period in 2014.

Change in the fair value of contingent purchase consideration payable was a loss of RMB5.1 million (US\$0.8 million) in the fourth quarter of 2015, compared with a loss of RMB44.8 million in the comparative period in 2014.

**ADJUSTED EBITDA:** Adjusted EBITDA for the fourth quarter of 2015 was RMB102.1 million (US\$15.8 million), compared with RMB160.1 million in the comparative period in 2014. Adjusted EBITDA margin for the quarter was 10.4% compared with 18.8% in the comparative period in 2014 and 13.2% in the third quarter of 2015. Adjusted EBITDA in the fourth quarter of 2015 excludes share-based compensation expenses of RMB40.1 million (US\$6.2 million) and changes in the fair value of contingent purchase consideration payable which was a loss of RMB5.1 million (US\$0.8 million).

**NET PROFIT/LOSS:** Net loss for the fourth quarter of 2015 was RMB112.9 million (US\$17.4 million), compared with a net loss of RMB155.5 million in the comparative period in 2014.

Adjusted net loss for the fourth quarter of 2015 was RMB29.1 million (US\$4.5 million) compared with an adjusted net profit of RMB7.1 million in the comparative period in 2014. Adjusted net loss in the fourth quarter of 2015 excludes share-based compensation expenses of RMB40.1 million (US\$6.2 million), amortization of intangible assets derived from acquisitions of RMB38.6 million (US\$6.0 million), changes in the fair value of contingent purchase consideration payable which was a loss of RMB5.1 million (US\$0.8 million) in the aggregate. Adjusted net margin was negative 3.0%, compared with 0.8% in the comparative period in 2014 and 1.7% in the third quarter of 2015.

**EARNING/LOSS PER SHARE:** Diluted loss per ordinary share for the fourth quarter of 2015 was RMB0.24, which represents the equivalent of RMB1.44 (US\$0.22) per American Depositary Share (“ADS”). Each ADS represents six ordinary shares. Adjusted diluted loss per share for the fourth quarter of 2015 was RMB0.08, which represents the equivalent of RMB0.48 (US\$0.07) per ADS. Adjusted loss per share is calculated using adjusted net loss as discussed above divided by the weighted average number of shares.

As of December 31, 2015, the Company had a total of 522.5 million ordinary shares outstanding, or the equivalent of 87.1 million ADSs.

**BALANCE SHEET:** As of December 31, 2015, the Company’s cash and cash equivalents and short-term investment were RMB1.79 billion (US\$276.3 million).
